

ITA AIRWAYS EARNS ECOVADIS BRONZE MEDAL
AN INTERNATIONAL RECOGNITION FOR THE COMPANY'S ESG PERFORMANCE AND COMMITMENTS

Rome, 19 December 2025 – ITA Airways has been awarded the Bronze Medal by EcoVadis, the leading international platform for corporate sustainability assessment. The airline stands out among the most attentive organisations to ESG principles at an international level.

With a score of 67, ITA Airways ranks within the top 35% of companies evaluated worldwide over the past twelve months (November 2024 – November 2025).

The EcoVadis assessment examines 21 criteria grouped into four main areas: Environment, Labour and Human Rights, Ethics, and Sustainable Procurement. To date, more than 130,000 businesses have undergone this analysis, which is based on recognised standards such as the Ten Principles of the United Nations Global Compact, ILO conventions, GRI standards, and the ISO 26000 guideline. The evaluation process provides an objective analysis of corporate performance and offers operational guidance for continuous improvement.

This recognition attests to ITA Airways' ongoing commitment to sustainability, in line with the Company's founding values. As highlighted in the 2024 Sustainability Report, recently published, the EcoVadis Bronze Medal is the result of cross-departmental collaboration throughout the entire organisation, a fundamental element for concrete and lasting improvement in sustainability.

About ITA Airways

ITA Airways is the Italian reference carrier. The Company is 59% owned by the Ministry of Economy and Finance and 41% by Deutsche Lufthansa AG. ITA Airways operates both passenger and cargo air transport services, providing Italy with high-quality connectivity to international destinations, supporting tourism and foreign trade, as well as domestic connectivity within the Country, also leveraging integrated mobility. Through strong digitization of processes to ensure the best possible experience and personalized services, ITA Airways places customer service at the core of its strategy. This is combined with a commitment to sustainability, which encompasses environmental aspects (such as a young, technologically advanced fleet to reduce environmental impact), social aspects (a strong focus on its employees and the communities in which it operates), and governance aspects (integrating sustainability into internal strategies and processes).
